

At-A-Glance Annual Profile

2016 | January 1 - December 31

The background of the entire page is a photograph of the Central Valley Medical Center building. The building is a modern, single-story structure with a light-colored facade and large glass windows. A large American flag flies on a tall pole to the left of the building. In the background, there are rugged, brown mountains under a blue sky with scattered white clouds. A semi-transparent white banner is at the bottom of the page, containing the text 'CHANGING LIVES' in blue.

CHANGING LIVES

Central Valley Medical Center

Nephi, Utah

Annual Profile, volume 16

The Central Valley Medical Center Annual Profile is published to provide primary and secondary data on CVMC’s performance, events, relationships, capacity, directives, and economic impact on the CVMC service region in Utah. Central Valley Medical Center is dedicated to relationships with the people and industries within the region it serves. The belief that credibility comes from demonstrating open and honest interactions with both patients and community and is held at the highest value.

Message from the Chief Operating Officer
Randy Cuff, CVMC COO

As we begin 2017, I have reflected on the great work of our staff, medical staff, volunteers, and Board of Directors over the past 12 months. I am excited to present our accomplishments in 2016 and look forward to new additions at Central Valley Medical Center.

CVMC is grateful to play such a vital part within our community. I am confident in the quality services we provide at CVMC and I am particularly pleased with our staff and medical staff.

We are grateful for your continued support and look forward to increasing our services in 2017.

CVMC Medical Clinics

have grown as a distinguished and notable part of Juab County, Sanpete County, and the surrounding areas.

A multi-specialty clinic, Nephi Medical Clinic offers primary care in family medicine and specialized medical care in orthopedics, obstetrics, and gynecology, as well as a variety of medical services.

The mission of both medical clinics is to provide sensitive, compassionate health care of the highest quality to our patients, their families, and friends.

We have continually proven our dedication to the community for over 64 years in meeting that mission; first as part of Juab County Hospital and then in 1985 as part of Central Valley Medical Center. We are constantly innovating to provide cutting edge, optimal patient care to help change lives.

Taking care of ourselves is important and many of us spend a lot of our time, money, and energy taking care of our bodies, but what about our mental health?

CVMC has a full-time mental health specialist who is professionally trained in treating individuals, couples, and families affected by the difficulties and emotional states of life.

“ I build a trusting relationship to help my client to see things more clearly, possibly from a different viewpoint. This can enable them to focus on feelings, experiences or behavior, with a goal of facilitating positive change.

Mark Saunders, MD, OB/GYN
Central Valley Medical Center
Obstetrics and Gynecology

Started | July 2016

“ I am so excited to be able to join the excellent team of health care professionals at CVMC. I grew up in a small town and hope to get to know my patients on a personal basis over the course of many years. ”

CVMC | Dr. Mark Saunders, MD OB/GYN

Dr. Saunders is a well-respected Board Certified Obstetrician and Gynecologist who practiced in the American Fork area for over 17 years. Prior to his practice, Dr. Saunders served a full-time mission in Argentina and is still fluent in Spanish.

Dr. Saunders began his education by first attending The Medical College of Wisconsin from 1987-1991. He then served as a transitional resident from 1991-1992 at St Luke's Medical Center in Milwaukee, Wisconsin. Dr. Saunders went on to residency in Obstetrics/Gynecology in Creighton University School of Medicine from 1992-1995 in Omaha Nebraska. He served as chief resident there in 1994-95.

Maintaining the philosophy, “to treat every patient as though she is the only one” has made him a favored obstetrician and gynecologist to many of his patients. His core business values of knowledge and compassion work hand in hand to provide the best care possible. He also strongly believes that in most cases, it is best to “let mother nature take her course” when it comes to patients delivering vaginally, except of course in certain circumstances where intervention is prudent and necessary.

Demonstrating his knowledge, capability, and expertise, Dr. Saunders has delivered over 4,500 babies while maintaining a very low C-Section rate. He cares for normal and high-risk pregnancies and offers a full range of gynecology, contraceptive, menopause and initial infertility care. Dr. Saunders is also involved with women's health studies as an active women's health researcher.

On a personal level, Dr. Saunders enjoys mountain biking, running, and other outdoor activities with his family. He and his wife, Sheila, are the proud parents of 6 children. He takes the time to really listen to all of his patients' needs and adjust their care accordingly.

CVMC | Dr. Robertson Ward, MD Family Practice

Dr. Ward is Board Certified in Family Medicine with advanced training in Bio-Identical Hormone Treatment, Functional Medicine and Addiction Medicine. He practiced for more than 30 years in Kentucky, before moving to Utah in 2015.

Dr. Ward was raised in suburban Chicago, Illinois (Glen Ellyn) and then attended college at Iowa State University from 1973-1977. Class work focused on Pre-med with a concentration in cultural anthropology. He returned to Chicago and attended medical school, at the University of Illinois.

He completed his residency in Family Medicine at the University of Cincinnati where he was recognized as the CIBA resident of the year. He started a rural practice in nearby Butler Kentucky (population 550). He continued working in Kentucky, near the Cumberland Mountains in Berea Kentucky and then decided to relocate in 2015 to Utah when he married a Provo, Utah resident. He and his wife Diane, along with their 3 children continue, to live in Provo.

Dr. Ward has always had an interest in holistic medicine. He has continued to make home visits since his training in the early days. He sees the patient as part of a family unit as well as their cultural and genetic background. He also has advanced training in Functional Medicine, which applies principles of natural remedies to traditional medicine. This allows complex medical problems to be treated together more easily, instead of a list of issues separately. He has focused on treating fibromyalgia, irritable bowel syndrome, allergies, and adrenal insufficiency. Dr. Ward takes a special interest in the well-child care, as well as elder preventive care services.

Dr. Ward has loved the outdoors in Utah since moving here. He enjoys hiking, snowshoeing, camping, and sailing. He also dedicates his time to his local Scout group as a leader in Provo Utah and enjoys woodworking in his spare time.

Started | December 2016

“ The privilege of medical practice is rooted in partnerships with patients. That also extends to each person's individual health when we search for problems and find solutions which include not just treating disease but also empowering and strengthening our health. ”

As an esteemed Board Certified General Surgeon, Dr. Sorensen has spent the last three years at Desert View Hospital in Pahrump Nevada, as the Head of Surgery. Prior to that, he was responsible for the transplant team at the University of Utah, School of Medicine.

With a fellowship training in hepatobiliary and transplant surgery, his practice has focused on general, hepatobiliary and pancreatic surgery, liver and kidney transplantation, laparoscopic procedures including kidney donation, and dialysis access procedures. Dr. Sorensen has also worked as a trauma surgeon at three different level 1 trauma centers and is a certified Advanced Trauma Life Support instructor.

Dr. Sorensen not only enjoys serving his local community but also serving his country, as a Colonel in the U.S. Army Reserve Medical Corps and has served four tours of overseas duty since 2001.

Dr. Standring is excited to join the family medicine team at CVMC where he will see patients in the outpatient clinic and round on them if they are admitted to the hospital. He provides comprehensive care for the entire family, from prenatal care to newborns to patients in their senior years. He is fluent in Spanish and Portuguese.

He performs a broad range of outpatient procedures including IUD and Nexplanon placement, circumcision, musculoskeletal injections, osteopathic manipulation, skin biopsy, and cardiac stress tests. He is certified in bupropion for opioid-use disorders and PrEP management. He maintains certification in advanced cardiovascular life support, pediatric advanced life support, advanced life support in obstetrics, and neonatal resuscitation program.

Dr. Standring has special interests in Sports Medicine and Pediatrics, along with providing a variety of services for Obstetrics including womens health, prenatal health, pregnancy, labor, and childbirth.

Dr. Gordon Duval is returning to his native state of Utah to serve as a pediatrician to the children of Nephi and surrounding areas. He acquired his Bachelor's degree from Brigham Young University where he studied Nutritional Science and performed with the Ballroom Dance Company. For several years he served as a member of BYU Emergency Medical Services. He was instrumental in the creation of the BYU Crisis Program to address the needs of abused and neglected children – now divided into 2 programs: Hope and Healing.

He completed medical school in Pennsylvania at LECOM and then specialized in Pediatrics at the University of Missouri. With passion, he applies the art and science of healing to help infants, children, and adolescents during times of injury and illness. Partnering with parents, he strives to achieve the optimal happiness and well-being of all children.

Dr. Chris Karrasch is excited to join the orthopedic team at Central Valley Medical Center in August 2017. After completing his two-year LDS mission in Hartford, Connecticut, Dr. Karrasch attended the University of Nevada, Reno receiving his bachelor and medical degrees. He recently completed his five-year orthopedic surgery training at Penn State, where he served as Chief Resident and was nominated as an American Orthopedic Association Emerging Leader.

Dr. Karrasch is currently sub-specializing in arthroscopic surgery and sports medicine at the Cincinnati Sports Medicine and Orthopedic Center under the direction of one of the fathers of sports medicine, Dr. Frank Noyes. This prestigious fellowship is providing him with excellent training in treating complex knee and shoulder problems as well as caring for the aging athlete.

Dr. Karrasch makes it a priority to get to know his patients on a personal level. He values educating patients on various treatment options in order to provide personalized orthopedic care.

As Central Valley Medical Center continues to expand its footprint in Central Utah and reach across the state, CVMC is trusted to deliver the highest-quality care, provide the most personalized patient experience, and elevate the standards of care through meaningful innovation. Confidence in CVMC provides the resources to invest in continuing improvements, allowing Central Valley Medical Center to continue its commitment to the mission of providing sensitive, compassionate health care of the highest quality to our patients, their families, and friends.

CVMC History

Time-Line 1952 - 2016

1952

Established as Utah's 'JUAB COUNTY HOSPITAL' in March of 1952 with 11 patient rooms, 1 Surgical Suite, and Clinic.

1980

New Fountain Green Utah Clinic established to better meet the needs of the area.

1983

New CEO, Mark Stoddard is appointed.

1984

Rural Health Management Corporation enters contract for managing CVMC.

1985

On January 1, 1985 Juab County Hospital, now Central Valley Medical Center, is established as a 501(c)(3) Organization.

1990

Legally changed hospital name to **Central Valley Medical Center (CVMC)**

2000

Fountain Green Clinic moves into a new facility better equipped to care for patient needs.

2001

CVMC moves to a new hospital and clinic facility in Nephi Utah. Increasing CVMC's capacity to; 19 Rooms, 2 Labor and Delivery Rooms, 5 ER Beds, 2 Surgery Suites, and 6 Clinical Pods for Physicians; integrating an outpatient clinic, diagnostic lab, inpatient and outpatient surgery, respiratory therapy, and physical therapy departments. The new facility also established a state-of-the-art radiology department and services, including a 16 slice spiral CT Scanner, Ultrasound, Mammography, and mobile Magnetic Resonance Imaging (MRI).

2004

CVMC is established as a critical access hospital (C.A.H.)

2006

New 50,000 square foot building expansion at CVMC's main location adding a new Retail Pharmacy and Home Health Building, Same Day Surgery Suite, 3 Clinical Pods for Physicians, and a large education room and conference room, 6 Hospital Rooms, Increasing the hospital private rooms to 25.

2010

Diagnostic Imaging Department became fully digital utilizing a Picture Archiving and Communication Systems (PACS) including digital mammography.

2011

A second building addition at CVMC included 2 new OR Suites for Orthopedic Surgery Specialty and 2 new Hospital Patient Observation Rooms.

2012

Diagnostic Imaging Department incorporated DEXA Scanning Capabilities to measure bone mineral density (BDM).

2013

While being named to the Top 100 Critical Access Hospitals in Rural Healthcare nation wide; CVMC established a Permanent Magnetic Resonance Imaging (MRI), allowing for enhanced image contrast, reduced blurring and reduced artifacts to view more details and reduce the need for rescans.

2016

Developing a third expansion to CVMC in Nephi Utah

2015

CVMC establishes a landing pad for University of Utah's AirMed services; delivering the most state-of-the-art equipment available, which includes digital capnography, invasive line management, and intra-aortic balloon pumps for transport. Flying trauma, burns, medical, pediatric, neonate, high-risk OB, and cardiac assist device patients 24 hours a day to our local communities!

AT-A-GLANCE

CHANGING LIVES

CVMC HISTORY

Central Valley Home Health | Neighbors Caring for Neighbors

Central Valley Home Health has been named to the Top 500 of the HomeCare Elite™ for the seventh year in a row, a recognition of the top-performing home health agencies in the United States.

HomeCare Elite is a market-leading analysis that identifies the top 25 percent of all Medicare-certified home health agencies and further highlights the nation's top 100 and top 500 agencies. The program is unique in that it analyzes all home health agencies, encompassing overall performance.

Winning agencies are ranked by an analysis of publicly available performance measures in quality outcomes, best practice (process measure) implementation, patient

experience (Home Health CAHPS), quality improvement and consistency, and financial performance.

Home Health Compare provides information about the quality of care provided by Medicare-certified home health agencies throughout the nation. This year, 9,406 home health agencies were reviewed, with 2,353 representing the top 25 percent that are Elite.

"It is an honor to recognize these outstanding home health providers," said Bud Meadows, Chief Revenue Officer for ABILITY. "They represent the best of the best in this profession and we applaud their efforts in delivering the highest quality of care."

Find out more about
Central Valley Home Health

Award | HomeCare Elite's America's Top 500 Agencies

“Delivering quality care to patients in home health care has always been paramount. However, quantifying that quality has become increasingly important, while tracking, measuring and interpreting data that supports quality improvements is becoming more complex. The 2016 HomeCare Elite winners have demonstrated success in providing the highest-quality care in their communities.”

Christine Lang, Senior Director
Product Management at ABILITY

CVMC | New Year's Baby 2016

"The first baby born in Juab County in 2016 arrived on January 4th," said Annie Hatch, RN, Women and Newborn Services Manager.

The baby was due to arrive on January 16th, but decided to come a little earlier and was born January 4th, at 3:02 p.m. and weighed in at 7 pounds 6 ounces, and was 20 inches long. The new baby boy was named Tripp Dustin. Proud parents are Brenda and Dustin Mackey, of Spring City, Utah. Helping to welcome the new baby at home are two brothers, Conner and Dalton.

This is always a fun time to have a baby. The staff at CVMC get excited about the contest and love to participate in any way they can to make it a special event.

CVMC provides a \$400 discount off the hospital bill for the New Year's baby. Along with this discount, the hospital donated a generous supply of diapers and baby wipes, formula hand sanitizer, baby powder, baby lotion and baby wash.

Local businesses, provided donations this year including: Reed's Drive-In, Nephi Federal Credit Union, Movies Plus/Lotsa Motsa, Choice Hardware/Do-it-Best, Mt Nebo Market, Sinclair, Nebo Leavitt Insurance Agency, Mid-States Consultants, Nephi Floral, Utah Community Credit Union, and Boutique on Main; along with the Utah Educational Savings Plan (UESP) donating a \$50 savings certificate.

“The CVMC Labor and Delivery department believes in providing the *highest quality of service*, and making your time at CVMC the best it can be, for one of the greatest experiences of your life.”

Dr. Oveson
Central Valley Medical Center
Family Medicine

INCREASING FOUNTAIN GREEN COVERAGE

When asked why Dr. Oveson would no longer be seeing scheduled patients in the Nephi Medical Clinic. “Dr. Oveson speaks Spanish very well, and the move makes him more accessible to the growing population in Sanpete County,” said Randy Cuff, CVMC Chief Operating Officer.

Dr. Oveson has been practicing medicine in Nephi and Fountain Green for over 30 years and has a large following of patients in both Juab and Sanpete Counties. Dr. Oveson treats the full spectrum of Family Medicine from pediatric to geriatric patients. He has a personal interest in treating diabetic patients and especially loves to work with children.

Make an appointment to see Dr. Oveson today! | 435-623-3240

TRAINING FOR DISASTER

A group of ten CVMC employees recently traveled to Anniston, Alabama to receive training at the Department of Homeland Security on Health Care Leadership during mass casualty incidents.

The group participated in simulated exercises to test their response based on any incident that results in multiple casualties—whether it is the result of a natural disaster; an accidental or intentional release of a Chemical, Biological, Radiological, Nuclear or Explosives hazard; or a disease outbreak that results in an epidemic or pandemic.

During the week-long training, attendees learn to make critical decisions in emergency situations and exhibit leadership and management skills in disaster mitigation, response, and recovery to increase the effectiveness and efficiency of healthcare emergency preparedness while maintaining the overall safety of responders and victims and/or patients.

Employees who attended the training from CVMC included: Randy Allinson, RN; Tami Scott, RN; Mindi Turpin, RN; DeAnn Young, Yvette Larsen, RN; Michelle Chapman, Shelly Richardson, Amberle Persons, Pat Baxster and Joe Tuckett.

CVMC HEALTH FAIRS | 2016

Central Valley Medical Center had the opportunity to provide two amazing Health Fairs during the year. The first CVMC Annual Health Fair of the year was held on May 21st, 2016 at CVMC’s Nephi Campus. This half day event invited all community members to take advantage of several of the most popular health screenings at a discounted price during the health fair event. The tests offered by CVMC included Comprehensive Metabolic Profile (CMP), Lipid Test, Complete Blood Count, Prostate Specific Antigen, Thyroid Stimulating Hormone (TSH), and an A1C screening for diabetes; along with free blood pressure checks, blood glucose tests, oxygen saturation checks, and balance screenings.

The annual Back 2 School Health Fair, is the second CVMC health fair of the year and was held on August 10th 2016 at CVMC’s Nephi Campus. This is a fun fair dedicated to helping local families with elementary aged children in the home get ready for a new school year. CVMC donated over 200 school supply bags filled with notebooks, pencils, crayons, colored pencils, rulers, glue, erasers, and school folders. CVMC held a One

Mile Fun-Run for kids in the morning to kick off the event. After that, it was a day of fun activities and health awareness with all the event vendors and health screenings that were available to the public providing a wealth of information on topics such as diabetes, drug, and alcohol abuse prevention, nutrition, healthy lifestyles, and many others.

Showing their support for CVMC and the community, local vendors included: Nebo Vision Clinic, Dr. Jared Clegg Podiatrist, Central Utah Public Health, Utah Highway Patrol, Nephi Smiles, Nephi Police Department, Nephi Fire Department, East Juab Ambulance and EMS, AirMed Utah,

USU Extension Services, Mountainland Head Start Program, WaspFit, CVMC’s Dwayne Horton-LMFT Counselor, Central Utah Counseling, Face Painting with Candace Flesher, and Blankenagel’s Backyard Bouncers.

CVMC had a great time putting these events on this last year and what a good time they were! From door prizes and giveaways to the amazing source of health information and free or discounted screenings; if you missed it this last year don’t miss it again, we hope to see you at the 2017 CVMC Health Fairs!

CVMC Expansion Projects | CHANGING LIVES

Because of population growth over the last 16 years, Central Valley Medical Center (CVMC) is working on a third facility expansion project. As the communities surrounding CVMC continue to grow, so must CVMC to meet the increasing health needs. This third expansion is not limited to one single area or department but will cover several areas of CVMC to enhance effectiveness and efficiencies in those areas.

First, CVMC has launched into developing architectural plans to

expand the CVMC Fountain Green Clinic in Fountain Green, Utah. This expansion will restructure and add space to the existing clinic. Expanding the clinic's capacity by adding three more exam rooms and one procedure room; allowing healthcare providers to more effectively see more patients daily.

Fountain Green won't be the only site with a new addition. Plans are being developed to help improve and introduce new service options to the CVMC Nephi Campus; such

as improvements to the Retail Pharmacy drive-through will help patients have a better experience getting their prescriptions. CVMC is also considering expanding the main entrance of the hospital to better accommodate patients and visitors.

Plans for a renovation and expansion of current departments will also be implemented. CVMC is planning on adding 51,885sqft of new building area that will be added to CVMC's existing 63,418sqft. This addition will nearly double the existing facility and service areas.

81% increase to existing Hospital and Medical Clinic facilities

51,885 sq ft

in new facility expansion additions

14,991 sq ft Renovated Areas Expanded

It's never too early to start planning future growth. With that in mind, within a few years CVMC will offer female patients a dedicated area for providing

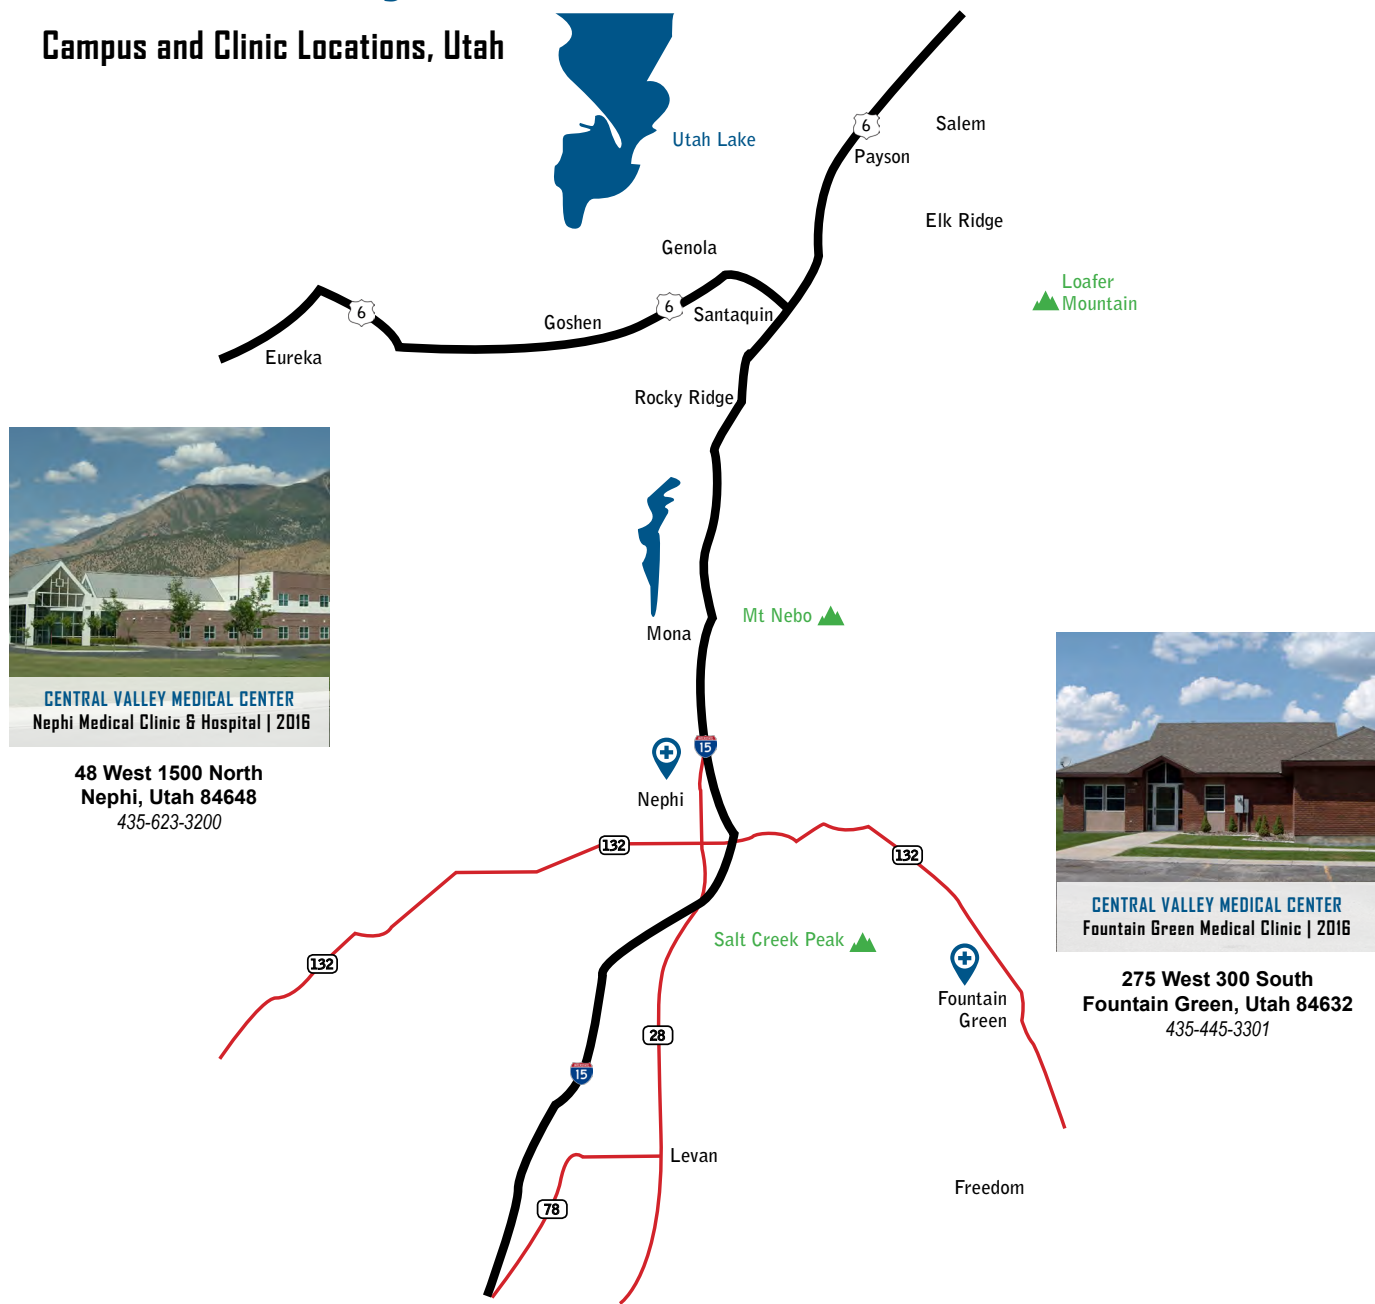

CENTRAL VALLEY MEDICAL CENTER
Nephi Campus | 2016

women's health needs. This addition will focus on women's health and will not only provide outstanding care right here in our community but also help patients understand the healthcare options are available and why they are important.

Efforts at Central Valley Medical Center continues to provide their patients and communities with excellent physicians, staff, and facilities to give the best care possible. Our staff is here for you, we believe in providing the highest quality service, and making every experience at CVMC an outstanding one. We understand how important it is to feel your best and we are committed to helping you get well and stay well.
